# ¿About AS?

AS SUITE is composed by Antonio y Serafín, two twin brothers who were born in the city of Granada and are passionate by plectrum music. Their passion by this type of music started when they were very young. Additionally, they combined the study of instruments such as the guitar, the bandurria and the lute. After their training in Victoria Eugenia's music school in they offer a wide repertoire of musical pieces. The study and versatility of those instruments have implied the creation of a repertoire that cover different musical styles, from themes of classic music (Bach, Mozart...), Andalusian folklore music (Falla, Lorca...) to more contemporary pieces (Camila Cabello, Elton John o Michael Jackson, Dua Lipa, Gipsy King...) adapting the repertoire of these instruments.
