A LA CARTE RESTAURANT La BISTECCA

Capacity: 120 guests

Being a good host is part of our cultural heritage and has always given us true pleasure. That is why we are constantly growing and looking forward to welcoming our guests and providing them with special treatment. Restaurant La Bistecca is making a great step forward towards modern and at the same time, very autochthonous, Montenegrin cuisine.

We find inspiration in the local heritage, and represent a new direction of local cuisine that is traditional, but also provocative and original. Our team worked to exploit the full potential of local foods, the ingredients we are familiar with, and that are the gift of our local nature, all in order to create a new fine-dining menu, deeply connected with our tradition and the inheritance we are very proud of.

Pool Bar La Piazza exudes a Kotor-square atmosphere and places you at the center of an idyllic setting where you can start your day in the shade sipping your first cup of coffee or enjoying a refreshing cocktail by the pool in the afternoon. There's a small blue-and-turquoise mosaic-tiled plunge pool rimmed by a wooden deck and wall waterfall.

WINE SELECTION AT FORZA TERRA

Extraordinary food deserves, indeed demands to be accompanied by the extraordinary in every way.

As Sommeliers, our first duty is to suggest wines to suit the needs of our guests and secondly to choose wines to complement the menu. We believe every palate is both different and highly individual and for this reason, our wine suggestions will vary from guest to guest even if the same dish is chosen.

The most important attribute in a wine for us is that of character. With this in mind, we have selected a blend of perfectly vinified classics and adventurous niche wines from all over the world. Therefore, whether it is a glass, bottle or flight of wines that you fancy with your menu, we are happy to help you choose the right wine to match any type of dish or occasion.

KOTOR OLD TOWN

The old town – that is the most famous part of Kotor, where the Kotor history, culture, and tradition are being preserved. The old town of Kotor has a great number of monuments of the medieval architecture: churches, cathedrals, palaces, and museums. The old town of Kotor stands out also by the great number of stylishly made gates, palaces of the wealthy families, and a great number of stairs. The old nucleus of Kotor today is considered to be the best preserved medieval urban entity in the Mediterranean. The largest and the most impressive are, by all means, city bulwarks which surround the town. From whichever door that you go into the town, the road will bring you to the most famous edifice – cathedral Sveti Tripun from the XII century, which is dedicated to the protector of the town – Sveti Tripun.

Cultural richness of Kotor is made priceless by its treasury which hides some significant cultural monuments like: Tower watch (VIII century), Cathedral of Sveti Tripun (XII century), Church of Sveti Luka (XII century), Prince's palace (XVII century), Church of Sveta Marija (XII century), Church of Lady of Health (XV century), and Napoleon's Theater (XIX century). Old Kotor has also numerous palaces like: Bizanti, Buca, Pima, Grgurin, in which today is Maritime museum.

The Skadar Lake National Park has the status of a significant ornithological area (IBA) since 1989, and in 1995 it was registered to the World Wetlands of International Importance (RAMSAR). It is a member of the Europark Federation, an international organization of national parks, headquartered in Grafenne, Germany, with over 400 members from 40 European countries.

MONTENEGRO

is a country in southeast Europe on the Adriatic coast of the Balkans. It borders Bosnia and Herzegovina to the north, Serbia to the northeast, Kosovo to the east, Albania to the southeast, the Adriatic Sea and Croatia to the west.

Montenegro is the seventh smallest country in Europe (13,812 km²) with less than a million inhabitants (621,873). Speaking about size, Montenegro shows off with the deepest canyon in Europe, the biggest lake in the Balkans, the longest underground river, the second tallest people in the world.

This is the land of the southernmost bay of glacial origin, the cleanest river and one of the last rainforests in Europe, the oldest olive tree, the last pelican resort and the warmest European town during summer.

Montenegro is a tiny country where the nature is stunningly beautiful, where myths unfold before your eyes, where great memories are created and where big welcoming hearts are. That's about the size of it. That's where Montenegro is.
