

MAKE

a memory

minimalism...

..less confusion and more meaning.

Minimalism is a tool that can help you find freedom... real freedom.

This is not to say that there is anything inherently wrong with owning material goods. Today's problem seems to be the meaning we attach to things: we attach too much meaning to things, often at the expense of our health, our relationships, our passions, our personal growth and our desire to contribute beyond ourselves.

This feeling led us to the creation of **MAKE A MEMORY**

Designed with simplicity and functionality as we would like our life to be!

Create space for what is necessary for your well-being, such as creativity, love and fun, and put them on paper. Keep beautiful moments that make you nostalgic and remember.

Grab a prop . strike a pose... Make a memory!

Presentation - Price list
